Dear Shri Rajan Bharti Mittal,

Sub: Satya Bharti Learning Centre Program by Bharti Foundation in Sawai Madhopur

I wanted to write to you to thank you for the support of the Bharti Foundation, following my request for initiating educational and socio-economic development projects in my assembly constituency, Sawai Madhopur, Rajasthan, which has been declared as one of the 250 most backward districts of the country.

Let me take this opportunity to commend the Bharti Foundation for the wonderful work being carried out by its team in providing access to education to a large number of “Out of School Children” from the marginalized sections of the society.

The endeavors of the Bharti Foundation have generated remarkable results and so far I have come to know that more than 600 “Out of School Children” have been enrolled back into government schools through 27 centers. The program has also provided employment opportunities to 27 local youths, to work as education volunteer in these centers.

The continued efforts of the Bharti Foundation will contribute immensely to improving the educational indicators in the district, as studies have shown that Sawai Madhopur has a 66% literacy rate (only 47% for women), and there are more than ten thousand “Out of School Children” in the age group of 6-14 years in my assembly constituency.

I thank you for accepting the request of people of Sawai Madhopur and wish you and your team continued success. I would be grateful if you could also look for more ways to expand the work of your foundation to improve education in the government schools for the children who would benefit so much from your support and interventions, as well as any other socio-economic development programs that your Foundation engages in. My teams at the MLA office and at the Princess Diya Kumari Foundation are always at your team’s disposal for any guidance, facilitation, and support required.

With kind regards,

Diya Kumari
